

If you love Danielle Steel, but need more reading ideas...

Librarians and Readers agree that these are some similar authors to DANIELLE STEEL...

If you like glitz and glamor, you might try...

If you like her historical stories best, you might try...

If modern family sagas are more your speed, try...

If you prefer women's fiction or "chick lit," give these a try...

And while Steel isn't a romance writer, so much as a writer who includes romance in her plots, here are some good contemporary romances...

Maybe you like books that deal with tough issues...
